Suppliers response:

Manufacture and Supply of one Kenworth 6x4 90T rated prime mover.

Supplier provided pricing

Price EXCLUDING Tax: \$ 350,155.00 AUD
Tax component: \$ 35,015.50 AUD
TOTAL PRICE: \$ 385,170.50 AUD
These prices are: Estimated

Comments: Due to the unprecedented abnormally long production lead times and the uncertainty in the world economies pricing quoted is indicative only.

PACCAR will provide a firm price 4 months from the scheduled production build date, customers must commit to the order within 30 days of this advice. Cancellation maybe requested within this 30 day period without incurring any financial penalty.

All Kenworth Dealers have been allocated production capacity in 2024 based on their historical volumes, your local representative will be able to advise a potential build date.

Invoicing Details

If successful, the supplier will invoice with the following details

Business Name: PACCAR AUSTRALIA PTY. LTD.

Business Number: 43 004 669 667 (ABN)

Additional Supplier Comments:

Kenworth Trucks have been designed and manufactured in Bayswater, Vic since 1971 and has been the No 1 Heavy Vehicle (15T) Manufacturer for close to 20 years. This year we will complete a \$40m expansion to our factory that will set us up for many years to come; unlike the car manufacturers we are committed to our philosophy of designing and manufacturing the "World's Best Trucks" for Australia's harsh conditions in Australia.

All Kenworth models are unique to Australia and are designed to meet our unique harsh operating conditions and our higher mass limits. The T610SAR model was released in 2017 and features a 2.1mt wide cab which is 300mm wider than traditional Kenworth bonneted models and offers all of the latest safety innovations and driver comfort features. The T610SAR has a set forward front axle to maximize productivity where Bridging Formulas apply; it is powered by the Cummins X15 engine range.

Description: MACK Trucks are designed, engineered and manufactured in Australia for Australian city, rural and outback conditions. When a local government authority needs a tough truck for specific heavy duty tasks MACK is just that truck. Your specific technical and operational requirements will be built into the Mack as part of production, not be an add-on after production. Mack is supported by Australia's largest dealer network. The network will service and support your Mack over its lengthy operating life. Mack, alongside Volvo and UD trucks is one of the three brands of Volvo Group Australia (VGA), Australia's largest manufacturer and supplier of heavy trucks.

VGA can also offer integrated financial programs tailored to your council requirements and planned maintenance and roadside assistance packages to maximise your trucks Uptime.
