Australian Fire Danger Rating System

What is the Australian Fire Danger Rating System?

The Australian Fire Danger Rating System (AFDRS) Program is redesigning the forecasting of fire danger in Australia. The AFDRS is a project of national significance being developed collaboratively by each state and territory, and the Commonwealth government. It aims to improve public safety, reduce the impacts of bushfires and better support the community with nationally consistent ratings and messaging. The AFDRS will be implemented on 1 September 2022 across Australia.

What are Fire Danger Ratings?

Fire Danger Ratings describe the potential level of danger should a bushfire start. They provide people with information so that they can take action to protect themselves and others from the potentially dangerous impacts of bushfires. Ratings are calculated using a combination of weather forecasting and vegetation information. They do not indicate the chance of a fire occurring.

How is the AFDRS different from our current system?

The current Fire Danger Rating System is largely based on 60-year-old science applied on a large scale. New technology and research have greatly improved our ability to more accurately predict fire behaviour and the potential threat to the community. The AFDRS will have four levels with action-oriented messages to encourage people to take action.

Supporting messages, including localised information, will clearly explain what community response is required at each level. The AFDRS also introduces an 'off' or 'no rating' level (white strip under Moderate) for days where no proactive action is required. This does not mean that fires cannot happen, but that they are not likely to move or act in a threatening way.

The ratings and high-level messages are:

Moderate: Plan and prepare.

High: Be ready to act.

Extreme: Take action now to protect life and property

Catastrophic: For your survival, leave bush-fire risk areas.

FIRE BANS

Fire bans may be applied during both the Restricted and Prohibited Burning Periods.

A **TOTAL FIRE BAN (TFB)** is a ban put in place by the Department of Fire & Emergency Services (DFES). When declared, TFBs are in place for the whole day from midnight to midnight. They may be revoked during the day if the forecast weather does not eventuate or if weather conditions ease. Further information about what activities may / may not be undertaken during a TFB can be found by visiting DFES' website - www.dfes.wa.gov.au. To find out if a ban is in place listen to ABC radio, follow DFES on Twitter / Facebook, go to the DFES website or call 133 337.

A **HARVEST & VEHICLE MOVEMENT BAN (HVMB)** is a ban put in place by the Shire of Westonia. It carries different conditions as to what activities can be undertaken than a TFB. Visit the Shire website (www.westonia.wa.gov.au) to find out what activities may / may not be undertaken. If you would like to be on our 'SMS List' please contact Jasmine on 9046 7063 or admin@westonia.wa.gov.au with your name and mobile number.

Harvesting is not permitted on Christmas Day and New Years Day. Harvesting is permitted on all Sundays and other Public Holidays except where a harvesting or movement ban has been imposed due to extreme weather conditions.

The penalty for failing to comply with this order is a fine of not more than five thousand dollars (\$5000) and a person in default is also liable, whether prosecuted or not, to pay the cost of performing the work directed by this notice, if it is not carried out by the owner or occupier by the date required by this notice.

FIRE INCIDENT REPORTS

All landowners and occupiers who incur a bushfire have an obligation to assist the Fire Control Officer to compile a Fire Incident Report Form.

LANDOWNERS & OCCUPIERS RESPONSIBILITIES
