Nothing to see here!!

Little old Westonia has been a hive of activity in the last couple of weeks that would be the envy of larger towns!

Some exciting developments around the town include;

Bowls Stadium

The construction of the 44m x 32m dome shelter has progressed really well with the steel structure completed and only the insulation and cladding to be done. The structure is really impressive and blends in extremely well with the existing stadium building. On completion of the shelter will see the new 6 rink bowling green installation taking place in May.

RAC Streetscape Project

Tammi de Rooy from Mukinbudin is doing a wonderful job with the town Murals which represent the local orchids varieties on the CO-OP windows and a historical representation of Mick Antonio (Spanner) during his time as proprietor of Westonia Agencies and BP on the small shop adjacent COOP. We also welcome back Michelle Murfit from Merredin who will be creating the artwork on 6 x new little shops being placed around the town as well as touching up on the old little shops. Shelters are currently being fabricated for installation in front of the Old Miners Hall which will include seating with additional street lighting and bins being installed on the Wolfram Street footpaths.

Oval Shelters

In a clever re-use of the old bowls shade shelters, Jonesy has re-purposed 4 x shelters on the Oval edge. One shelter will serve as the Band/ Performance Stage with the other 3 being able to be used as bar area and general rest area for visitors to the oval. They are looking quite smart and will increase the amenity down at the oval.
